

## Product Datasheet Heavyweight Device Stand

### Features

- Seamless moulding and smooth surfaces for easy cleaning
- Lightweight maneuverability
- Height adjustable Fixed height
- Integrated cable management
- Power ready with our GeniTec™ power system for power on the go
- Small footprint for space saving

### Description

The MediStand is our non-powered heavy-duty device stand built to be strong and versatile ready for the rigours environment of a hospital. The MediStand prioritizes ease of cleaning and minimal footprint within hospital wards through a slim profile design. Its design ethos revolves around adaptability, offering a range of attachments and accessories to cater to the diverse needs of healthcare. With the key aim to enhance medical workflows, the MediStand features customisable fittings, integrated cable management, colour-coded options and optional power support that is best suited to support medical applications, refining the workflow to become more effective and reliable. Finding the right solution has never been easier, our adaptive stands can support you now and in the future.
